NESTOR FALLS FLY-IN OUTPOST

BUSH REPORT

Escape to the Wilderness !

We would like to wish everyone a Happy Easter and safe travels over the holidays to visit with your families and friends.

Sport Shows Season is done for another year. We had great results from the shows this year compared to last year. I am hoping that this is a sign of better things to come.

Spring is fast approaching us as you can see from the photo below We soon will have open water. As the bay opens up more and more every day so does the excitement of another season of fun, sun, flying and fishing.

All the boys are coming back this summer to fly which will make opening so much easier. Jon Dahl one of our Turbine Otter pilots was back in Winnipeg for the winter; Guy our 185 pilot now moving into the Beaver was in Thunder Bay with his family; Matt our Beaver pilot now moving into the Turbine Otter and David R or Buster as we call him the other Turbine Otter pilot who now be flying a little of everything.

There is so much to do to get the camps opened up. First of all we have to get the planes out of the hanger. During the winter they have gone through their major inspections. Now its time to clean them up, paint the floats and put them in the water.

Once they are in the water the pilots must have their annual exams and test flights done. Once they have all the paper work in order and test flights done which takes about a week. This is when we begin to fly in the motors, fuel and propane. This takes several trips to get these supplies up North.

Hopefully the weather stays nice and its time to turn on the water at each of

the Outposts. This can take some time to do as the winter can be hard on the plumbing up North. You never know if you are going to find leaks from the winter and once the water is turned on you hope that mother nature does not play any bad tricks on you and make you start all over again.

By this time its time to think about all the beverages that need to flown up to the Outposts.

Then we are ready for the guest to arrive. So this why when we get some extra time to get the work done like hopefully this year we get excited to have a few extra days or weeks to get the operation running again.

Joke of the Month

Sent in by [Cathy Lindner](#)

A Florida senior citizen drove his brand new Corvette convertible out of the dealership. Taking off down the road , he floored it at 80 mph he was enjoying the wind blowing through what little hair he had left.

"Amazing," he thought as he flew down I-75, pushing the pedal farther. Looking in his rear view mirror, he saw a state trooper behind him, blue lights flashing, and siren blaring. He accelerated to 100 mph, then 110, then 120...

Suddenly he thought, "What am I doing? I'm too old for this," and pulled over to await the trooper's arrival. Pulling in behind him, the trooper walked up to the Corvette, looked at his watch and said, "Sir, my shift ends in 30 minutes. Today is Friday. If you can give me a reason for speeding that I have never heard before, I'll let you go."

The old gentleman paused, then said, "Years ago, my wife ran off with a Florida State Trooper. I thought you were bringing her back!"

"Have a good day sir," replied the trooper.

Till next month

Dave, Michelle, Jon, Ryan, Kasey and Ashley

Things to Remember

- Book your fishing vacation with Nestor Falls Fly-In Outposts
- Call in your beverage order
- Book your overnight reservations
- Log on for your fishing licenses
